S.U.C. NEWS

MARCH 1, 1972 VOLUME 1 NUMBER 1 3-1-1972

S.U.C. NEWS

S.U.C. is the Student Unity Council. Each year we the students elect from each department three students plus from the graduates as a whole three other students. S.U.C. meets regularly in the conference room 4:30 p.m. Tuesdays. Meetings are open to all students. All committees of the Board of Trustees provide for student membership, and the formal process of appointment is through S.U.C. The division of power in the policy making committee of the board is one third students, one third faculty and one third original trustees. Also on the departmental level, departmental policy committees of faculty and students deal with decisions concerning that department itself.

FIRST S.U.C. NEWSLETTER

This newsletter's purpose is to keep you informed about what the Student Unity Council is doing, what we can do as students in policy making for our school, and act as a democratic forum for student grievances and needs. We in S.U.C. will formulate general goals for the students, which in turn will be implemented by the various legal structures already created. Our purpose is to create a realiable, responsive organ. Read this newsletter to know our positions and our next moves. This letter will come out every two weeks until we get it together enough to do it every week. Any people interested in helping are welcome. Either come to the S.U.C. meetings or leave a note in the S.U.C. box in the office.

S.U.C. BULLETIN BOARD

The S.U.C. bulletin board in front of the Receptionist's Office is for all S.U.C. communication to students covering areas the newsletter can't. We will set up a suggestion box plus memo sheets for direct communication with us. (Until the box is set up, please use S.U.C. box in the office). If suggestions and announcements are typed or written legibly, we can consider printing them in this paper. Messy, illegible comments are also extremely useful and will be discussed openly at S.U.S. meetings and used where possible to everyone's advantage. All notes to S.U.C. should be signed by the person who wrote them. Anonymous cracks can be better appreciated on the bathroom walls.

Last week elections were held by departments.

Last week's meetings were held by students in the printmaking, photo, film and painting departments to elect representatives into the vacant seats on the Student Unity Council. Here are your reps:

FILM: Lawrence White, steering committee
Doyle Saylor
Diane Levine, new member

These last two film showings are from the Film History class. S.U.C. sponsors these showings and they are free to all students.

DOGS!

Dogs do not belong at school. People are getting tired of having dogs piss all over their work and in sliding in piles of shit. Someone has to be paid to clean their shit up and I'm sure we could all think of better ways to use that money. So protect your dog from the rath of its victims and the danger of the pound: KEEP YOUR DOGS AT HOME!

S.U.C. NEWS STAFF AS OF NOW: Ainsley Perry, Doyle Saylor

Recent History of the Student Organizations of S.F.A.I.

Students for a Creative Involvement-resulted from massive student demonstration against the war after Cambodia. Lots of volunteers for some weeks until end of school, tried to establish a basic working organization. Dissolved over summer leaving behind residual group of students interested in the idea and practice of student organization.

Summer 1970 - General financial crisis as result of mismanagement plus the overall economic recession-inflation.

The Institute Committee is created as the formal organ to implement student power. Spends time trying to identify the issues and set up reasonable governing structures to deal with such. Begins to negotiate with Board of Trustees for voting rights and policy initiative concerning the school.

INSTITUTE COMMITTEE begins to dissolve due to internal dissension and unfocussed activity. Radical students outside of Institute Committee begin to organize strike in order to back demand for voting rights.

General student vote taken with a large majority of those who vote indicating they support strike.

Board accepts proposed changes. Negotiations begin to implement the new student organization. Institute Committee ceases. Student Unity Council formed.
